Good tips when you are going to clean.

Cleaning Inspection

Cleaning inspection is the very last task you perform in the apartment together with us at MKB. It's crucial that you hand over a fully clean and undamaged apartment to us. If it is not properly cleaned, we will hire a cleaning company, and you will be responsible for the cost.

At the time of the cleaning inspection, the apartment and storage should be completely empty of furniture, the move-out cleaning will be checked, and all keys received must be returned to us. It is important that you ensure you have scheduled the inspection well in advance.

We are very thorough with the cleaning during the final inspection. It usually takes longer than one might think to clean before moving out, so start early.
